### Harshit Jain

This is my first ever trip to hampta pass and it turned out to be the best one I've been, my trip leader @Arun was very professional and friendly, he helped me in every possible way, he made sure that we enjoyed our trip to the fullest. All kudos to him.

I will recommend CAT because of their service and stay at manali not just because of the trip leaders, but for the best accommodations they book, really worth the money.

It's a great experience with them, thinking to cover most of my trips with them only.

# ABOUT DESTINATION

## HAMPTA PASS

**Hampta Pass**, nestled in the Pir Panjal range of Himachal Pradesh, is a stunning high-altitude mountain pass that connects the lush green valleys of Kullu with the stark, arid landscapes of Lahaul. Sitting at an elevation of around 4,270 meters, this dramatic crossover trek offers a striking contrast of terrains—verdant meadows, pine forests, and blooming wildflowers on one side, and barren, rugged mountains on the other. Best explored between June and September, the trail unfolds like a cinematic journey, crossing glacial streams, cascading waterfalls, and panoramic snow-laden peaks. Often referred to as a gateway for first-time high-altitude trekkers, Hampta Pass is also known for its ever-changing weather and surreal campsites like Chika and Balu ka Gera. Ideal for adventure lovers and nature seekers, the trek delivers an unforgettable experience that blends raw Himalayan beauty with thrilling exploration.

Regular cardio and strength training exercises in the weeks leading up to the trek can help improve your stamina.

2. **Acclimatization:** Spend at least a day in Manali or a nearby location before starting the trek to acclimatize to the higher altitudes. This will help reduce the risk of altitude-related illnesses.

3. **Pack Wisely:** Pack only the essentials and keep your backpack as light as possible. Some crucial items to include are warm clothing, a waterproof jacket, comfortable trekking shoes, a good quality backpack, a first-aid kit, and personal identification.

4. **Weather Awareness:** Be prepared for unpredictable weather conditions. Check the weather forecast for the region before your trek and carry appropriate clothing and gear. Rain, snow, and sudden drops in temperature are common in the Himalayas.

5. **Stay Hydrated:** Proper hydration is essential at high altitudes. Carry a reusable water bottle and purifying tablets or a water filter. It's crucial to drink plenty of water to prevent altitude sickness.

6. **Altitude Sickness:** Be aware of the symptoms of altitude sickness, such as headache, nausea, and dizziness. If you experience any of these symptoms, inform your trek leader or guide immediately. Ascend slowly to higher altitudes, and if the symptoms worsen, descend to a lower altitude.

7. **Trekking Permits:** Ensure you have obtained all the necessary permits and permissions required for the trek. This includes checking with local authorities or tour operators about any permits needed for specific regions.

8. **Leave No Trace:** Follow the principles of Leave No Trace. Dispose of waste properly, avoid littering, and respect the environment and local culture. Leave the natural beauty of the Himalayas undisturbed for future generations to enjoy.

9. **Trekking Group:** If you're not an experienced trekker, consider joining a guided trekking group. Experienced guides can provide valuable knowledge, support, and safety.

10. **Emergency Contacts:** Carry a list of emergency contacts, including local authorities, your trekking group leader, and your family or friends back home. Make sure someone knows your itinerary and expected return date.

11. **Respect Local Culture:** Be respectful of the local customs and culture. Dress modestly, especially in villages, and seek permission before taking photographs of local people.

12. Insurance: Ensure you have travel insurance that covers trekking activities, including emergency medical evacuation if required.

13. Bag offloading is available at an additional cost of approximately ₹1500 (for a maximum weight of 10 kg).
